1. Class Overview

The Witch Doctor is a support heavy, crowd control specialist that excels at keeping enemies at bay while healing allies. Unlike other classes that rely on direct damage, the Witch Doctor's damage comes from a combination of pets, curses, and area of effect (AOE) spells. Key strengths include:

- High Crowd Control (CC) – Stun, slow, and immobilize enemies with skills like Voodoo and Curse of the Dead.
- Pet Management – Summon a variety of creatures (Bats, Ghouls, Voodoo Dogs) that can tank, DPS, or provide additional CC.
- Healing & Buffs – The Witch Doctor can heal allies with Healing Totems and buff them with Vampiric Touch.
- Survivability – Skills like Blood Siphon and Blood Rush provide self sustain.

Because of these features, the Witch Doctor is a natural fit for group content and high level PvE. However, with the right build, it can also dominate in solo play and PvP.

2. Skill Tree Breakdown

- Spirit of the Dead – A passive that increases the damage of your pets.
- Spirit of the Dead (Talent) – Grants a chance to resurrect a pet after death.
- Spirit of the Dead (Skill) – Summons a spirit that deals damage and stuns enemies.
