How to Create a Family Feud Bible Quiz

Choosing a Theme

While you could cover the entire Bible, focusing on a specific portion can keep the game focused and manageable. Consider these options:

- Old Testament Highlights
- New Testament Stories
- Parables and Teachings of Jesus
- Prophetic Books
- Book-by-Book Review

Select a theme that aligns with your family's interests or current study focus. For example, if your family recently read the Book of Psalms, a quiz centered on that book will feel fresh and relevant.

Gathering Questions

Start by compiling a list of potential questions. Aim for a mix of difficulty levels to keep all participants engaged. Here are some question formats you can use:

- "Name a prophet mentioned in the Book of Isaiah."

- “Which verse is the most frequently quoted in the New Testament?”
- “What is the first miracle performed by Jesus?”
- “Name a fruit that appears in the Garden of Eden.”

Remember to keep the wording clear and concise. Avoid overly obscure references unless you’re confident your audience will recognize them.

Determining Top Answers

The heart of Family Feud lies in the most popular answers. To determine these, conduct a quick survey among your group or a small test group of friends. Ask each participant to write down their top three answers for each question. Compile the results and rank them by frequency.

For instance, if you ask “Name a fruit in the Garden of Eden,” most people will write “apple” or “fig.” Those answers become your top scores. If you’re hosting a larger event, consider using an online poll tool or a simple spreadsheet to collect responses efficiently.
