Modern Warfare 2 Trophy Guide

Modern Warfare 2 (MW2) is more than just a classic shooter; it's a competitive arena where skill, strategy, and perseverance are rewarded with a collection of trophies. Whether you're a newcomer eager to prove your worth or a seasoned veteran looking to polish your trophy cabinet, this comprehensive guide will walk you through every trophy, the requirements to unlock them, and the best strategies to achieve them quickly.

Table of Contents

1. Trophy Overview

3. Trophy Categories & Strategies
4. Battle Royale Trophies
5. Multiplayer Trophies
6. Co Op Trophies
7. Pro Tips & Common Mistakes
8. Conclusion

Trophy Overview

MW2's trophy system is divided into three tiers: **Bronze**, **Silver**, and **Gold**. Each tier represents a different level of difficulty and rewards players with unique icons that display on the trophy page.

There are a total of 29 trophies, ranging from simple "Kill 10 enemies" to complex "Complete all missions in the campaign with 100% accuracy." The trophies are grouped into four main categories:

- Campaign
- Multiplayer
- Co Op (Spec Ops)
- Battle Royale

Below is a quick reference table summarizing each trophy's name, tier, and category:

Trophy	Tier	Category
First Blood	Bronze	Multiplayer
All Out Assault	Bronze	Campaign
Unstoppable	Silver	Co Op
Last Stand	Gold	Battle Royale

Understanding this layout will help you prioritize which trophies to tackle first based on your play style and the amount of time you can invest.

How to Unlock Trophies

Each trophy has a unique set of requirements. While some are straightforward, others involve a combination of skill, timing, and a bit of luck. Below are the general steps for unlocking trophies:

1. Read the Trophy Description: The description contains the exact criteria. Pay close attention to wording such as “within 30 seconds” or “without dying.”
2. Set a Goal: Write down the objective. For instance, “Kill 10 enemies in a single match.”
3. Practice: Repeatedly play the mode that triggers the trophy. Use training maps or custom games to hone specific skills.
4. Track Progress: Keep a log of your attempts. Many trophies require cumulative actions (e.g., 100 kills across multiple games). A spreadsheet or a simple note app can be invaluable.
5. Adjust Strategy: If you’re stuck, experiment with different weapons, loadouts, or tactics.
6. Confirm Completion: Once you believe you’ve met the criteria, replay the trophy’s trigger to confirm. The trophy icon will appear in your trophy list.

Remember that some trophies are *time limited* or *seasonal*. If you miss a window, you may need to wait until the next event cycle.

Trophy Categories & Strategies

Campaign Trophies

Campaign trophies are often tied to mission objectives. They can be simple, such as “Complete the first mission,” or intricate, like “Finish the entire campaign with a 100% score.”

- Start with the Basics: Complete each mission on the default difficulty. This will automatically unlock early bronze trophies.
- Use the Save System: Save frequently, especially before attempting high risk objectives. This reduces frustration if you fail.
- Replay for Perfection: For 100% trophies, replay missions, focus on missing collectibles, and use the “Replay” feature to track your accuracy.
- Leverage the “Replay” Feature: The game’s built in replay allows you to see missed shots or collectibles, helping you refine your play.

Multiplayer Trophies

Multiplayer trophies often revolve around kills, objectives, or match outcomes. They are typically the easiest to

unlock because they are triggered automatically during normal play.

- Choose the Right Game Mode: Some trophies only trigger in certain modes. For example, “First Blood” only triggers in Deathmatch.
- Focus on Kill Streaks: Many trophies reward kill streaks. Try to chain kills in a single match to meet criteria.
- Practice Map Knowledge: Knowing the layout of popular maps reduces travel time and increases kill opportunities.
- Team Up: Cooperative play can help you secure objective trophies like “Capture the flag” or “Secure the bomb.”

Co Op (Spec Ops) Trophies

Spec Ops trophies demand teamwork, precision, and often a specific weapon or loadout. These trophies are more challenging because they require coordination with teammates.

- Communicate: Use in game voice or text chat to coordinate strategies.
- Assign Roles: Decide who will be the “sniper,” “support,” or “tank.”
- Use the Right Loadout: Certain trophies require specific weapons or attachments. Check the trophy description for details.
- Replay Missions: Repeating missions can help you master the required tactics.

Battle Royale Trophies

Battle Royale trophies are the most demanding. They often require surviving to the end, achieving high scores, or performing extraordinary feats during a match.

- Survival First: The most common requirement is to survive to a certain number of players (e.g., “Survive to the final 10”). Focus on staying alive.
- Scoring High: Many trophies reward high kill counts. Use high damage weapons and aim for headshots.
- Strategic Positioning: Pick safe zones that allow you to avoid early combat while staying within the playable area.
- Utilize Resources: Loot wisely. Prioritize armor, health, and ammo before engaging enemies.
- Keep an Eye on the Circle: Stay ahead of the shrinking circle to avoid being caught outside.

Battle Royale Trophies

Below is a detailed list of Battle Royale trophies, including the specific conditions and practical tips for each.

1. Last Stand – Gold

Survive until the last 3 players in a match.

Strategy: Stay in the safe zone until the circle shrinks to the smallest size. Avoid early skirmishes; wait until the field is thin. Use the map’s high ground locations to your advantage.

2. Survivor – Silver

Survive to the final 10 players.

Strategy: Prioritize armor and health. Move slowly and listen for footsteps. Avoid over exposure in open areas.

3. Sharpshooter – Bronze

Score 5 kills in a single match.

Strategy: Equip a reliable rifle and practice your aim. Use headshots for maximum damage and kill efficiency.

4. Armored Victory – Gold

Win a match wearing a full set of armor.

Strategy: Acquire armor pieces early. Maintain a high health bar and avoid unnecessary firefights.

5. Quick Exit – Bronze

Finish a match in under 10 minutes.

Strategy: Use the fastest route to the safe zone. Keep moving and avoid stopping to loot.

6. Deadly Duo – Silver

Complete a match with a teammate and score 10 kills together.

Strategy: Coordinate with your teammate. Share loot and cover each other during firefights.

Multiplayer Trophies

1. First Blood – Bronze

Kill the first enemy in a match.

Strategy: Position yourself at the edge of the map where enemies first appear. Use a quick fire weapon for instant kills.

2. Unstoppable – Silver

Achieve a kill streak of 10 in a single match.

Strategy: Focus on one enemy at a time. Keep your movement fluid to avoid being caught by multiple opponents.

3. Headshot Champion – Gold

Score 20 headshots in a single match.

Strategy: Use a weapon with high headshot damage. Practice aiming at the head during training sessions.

4. Objective Master – Silver

Complete 5 objectives in a single match.

Strategy: Prioritize objective locations. Communicate with your team to ensure objectives are captured efficiently.

5. Speed Kill – Bronze

Finish a match in under 5 minutes.

Strategy: Use a fast map and avoid looting. Keep your movement constant.

Co Op Trophies

1. Spec Ops Specialist – Bronze

Complete the first Spec Ops mission.

Strategy: Keep the team alive, use the cover, and follow the mission objectives.

2. Team Tactics – Silver

Complete all Spec Ops missions with a 100% score.

Strategy: Coordinate with teammates. Assign roles and practice each mission's objectives.

3. Unbreakable – Gold

Finish a Spec Ops mission with no casualties.

Strategy: Use stealth and cover. Avoid unnecessary firefights.

4. Armored Assault – Silver

Complete a Spec Ops mission wearing full armor.

Strategy: Prioritize armor acquisition early in the mission.

5. Strategic Retreat – Bronze

Finish a Spec Ops mission within a specified time limit.

Strategy: Keep a steady pace and avoid detours.
